

Solar Saver SE-170

Solar powered battery trickle charger (2.6 W)

- Perfect for cars ATVs, motorcycles and other small vehicles.
- Protects against natural battery discharge and electronic drain.
- No more worries about empty batteries.
- Compact design allows the panel to fit in small spaces.
- The Sunsei Solar Saver provides immediate trickle-charge when exposed to daylight even through windows or windshields.

- Easy to Install, mounts virtually anywhere using included suction cups. (No extra mounting devices needed)
- Engineered to maintain and increase the life of your 12V starting battery.
- Push button touch action indicator lets you know that the panel is working.
- Will never overcharge your battery meaning no need to buy a charge controller.
- Compatible with Sunsei Solar Grip Pole mounting system
