

# myPower™ ALL *plus*

## EXTERNAL LAPTOP BATTERY

### Double your battery life!

myPower ALL Plus more than doubles the life of your notebook battery, and can simultaneously charge other small portable devices. Because myPower ALL Plus is modular, you can add a second battery to this lightweight universal rechargeable battery to double the battery capacity.

myPower ALL Plus charges and powers laptops and virtually any portable device—anywhere, anytime—making it a versatile solution for the power needs of mobile products, on the road and at home. Most portable devices are often in need of recharging after just 2 to 4 hours of use. With myPower ALL Plus, you can enjoy hours of extended time on laptops, portable DVD players, digital cameras, camcorders, MP3 players, portable CD players, mobile phones, and other portable consumer electronic products.

Selecting the right voltage for your portable device is done quickly and easily. Because myPower ALL Plus automatically resets to the lowest setting after a device with adapter is connected, you will never overcharge your portable device.

myPower ALL Plus comes with nine adapter tips, including a Mini USB tip, for connection to most small portable devices. Additional adapter tips are available at the Tekkeon Store at [www.tekkeon.com](http://www.tekkeon.com).

The optional extended battery can be purchased separately.

### Power your laptop and more...

- Laptops
- Portable DVD players
- Digital cameras
- Camcorders
- Portable music and media players
- PDAs
- Mobile phones

More adapters available at [tekkeon.com](http://tekkeon.com).

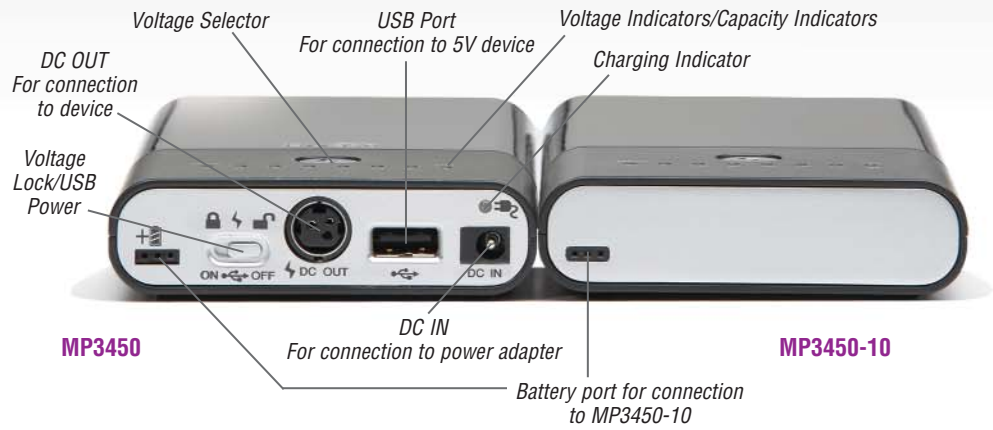

Retractable USB cable and 9 adapter tips included

### Power and charge two devices at once!

Charge your 5V devices including mobile phones, cameras, PDAs, iPod and MP3 at the same time you power your laptop.

### 3 EASY STEPS!

1. Connect the adapter.
2. Select the voltage.
3. Connect your device and power away.

### Power on the Go

| DEVICE                 | EXTRA POWER                        | W/EXTRA BATTERY*                   |
|------------------------|------------------------------------|------------------------------------|
| Laptops                | 3.5 hours                          | 7 hours                            |
| Portable DVD players   | 6 hours                            | 12 hours                           |
| Digital cameras        | 4800 photos                        | 9600 photos                        |
| Camcorders             | 12 hours                           | 24 hours                           |
| Portable media centers | 12 hrs of video<br>30 hrs of audio | 24 hrs of video<br>60 hrs of audio |
| MP3 players            | 42 hours                           | 84 hours                           |
| Portable CD players    | 96 hours                           | 192 hours                          |
| PDAs                   | 14 hours                           | 28 hours                           |
| Mobile phones          | 60 hours of talk time              | 120 hours talk time                |

\* Optional extended battery (MP3450-10) available to **double** the capacity.

Hours shown are approximate and will vary depending on connected device. Extra run time for 17" laptops will be lower.

MP3450 will **power** virtually all laptops for which an adapter is available. MP3450 also will **charge** most laptops that draw up to 64W output power from the device power adapter.

### Specifications
