

# Which Solar Panel Kit Do I Need?

Looking for a solar panel for your caravan, campervan or motor home but not sure what you need? Use our simple guide to help you choose. Our recommendations are based on average use including water pump, lights and 12v colour television. We've assumed UK Summer use; to extend your use into Spring & Autumn, select the next size up.

Vehicle size	Installation type	Trickle charge (when not in use)	Weekend Use	4 – 5 Day Trip	Extended touring
<b>Small 2-berth caravan, 65Ah battery</b>	Temporary, portable	10 Watt	10 to 20 Watt	20 to 25 Watt	25 to 30 Watt
<b>Average 2-4 berth caravan, 85Ah battery</b>	Temporary, portable	10 Watt	20 to 25 Watt	25 to 30 Watt	30 to 40 Watt
<b>Large 4+ berth caravan, 110Ah battery</b>	Temporary, portable	15 to 20 Watt	25 to 30 Watt	30 to 40 Watt	40 Watt
<b>Campervan or small motorhome, 110Ah battery</b>	Permanent, fixed	20 to 30 Watt	30 to 40 Watt	60 to 65 Watt	65 to 80 Watt
<b>Large motorhome, 200Ah battery</b>	Permanent, fixed	20 to 40 Watt	60 to 80 Watt	65 to 120 Watt	100-130 Watt
