

# SOLARTEC®

## KS20T

### HIGH EFFICIENCY POLYCRYSTALLINE PHOTOVOLTAIC MODULE

TYPICAL OUTPUT 20 Wp

MADE IN ARGENTINA

## SPECIFICATIONS

Solartec modules are manufactured with highly efficient polycrystalline photovoltaic cells produced by Kyocera in Japan. The conversion efficiency of these cells is over 14 %.

These cells are encapsulated between a tempered glass cover and an EVA pottant with TPE back sheet to provide maximum protection from the severest environmental conditions.

The entire laminate is installed in an anodized aluminum frame to provide structural strength and ease of installation. The junction box at the back sheet is used for the interconnection with the other components of the system.

### ■ Electrical Specifications

Nominal Power (NP)	20 Wp
Voltage @ NP	17,4 V
Current @ NP	1,16 A
Open Circuit Voltage	21,7 V
Short Circuit Current	1,26 A

### ■ Physical Specifications

Length	520 mm
Width	352 mm
Depth	22 mm
Weight	2,5 Kg

The electrical specifications are under test conditions of irradiance of 1 kW/m<sup>2</sup>, Spectrum of 1.5 air mass and cell temperature of 25°C.  
Minimum Power Output = Nominal Power - 10 %

All the distances are in mm.
